PROFESSIONAL SUMMARY

Driven Computer Science student and passionate **MERN Stack Developer** with hands-on experience in **AI-integrated** and full-stack web projects. Fast learner with strong **problem-solving skills**, real-world internship exposure, and a flair for crafting **innovative, user-focused digital solutions**. **Adapt in modern framework and tool with strong analytic and communication skill** ..

EDUCATION

B.Tech in Computer Science

ITS Engineering College - CGPA: 8.0

Sept 2022 - Sept 2026

Greater Noida, India

Intermediate (Class XII)

Kings Eden International School - 77%

2022

Mau

Matriculation (Class X)

Sunbeam Senior Secondary School - 77%

2020

Mohammadabad

EXPERIENCE

Web Development Intern

Oct 2024 - Jan 2025

SoftMind Technologies

Remote

- Collaborated on React-based projects using MERN stack (MongoDB, Express, React, Node.js).
- Worked on case studies and capstone projects, applying practical knowledge in modern web frameworks.
- Participated in solution design and troubleshooting to improve efficiency.

TECHNICAL SKILLS

- **Languages:** C++, JavaScript, TypeScript, Python, C
- **Technologies:** HTML, CSS, JavaScript, NodeJS, ExpressJS
- **Frameworks & Libraries:** Bootstrap, **ReactJs**, NumPy, Pandas, Scikit-learn, TensorFlow, Keras (Basic Knowledge of ML/DL)
- **Dev Tools:** Git, GitHub, VS Code, Visual Studio, Jupyter Notebook, Google Collab, Kaggle
- **Databases:** MongoDB (NoSQL), SQL

PROJECTS

Early Diabetes Detection | Python, Pandas, scikit-learn, NumPy, Matplotlib, Jupyter

- Built a machine learning model to predict the risk of diabetes based on patient health data, developed during college training.
- Implemented Logistic Regression and Random Forest classifiers using scikit-learn to achieve high accuracy on real-world data.
- Visualized dataset insights and model performance using Matplotlib; practiced end-to-end ML pipeline with proper data preprocessing.

Genius-Ai | Next.js, Tailwind, Prisma, Stripe, OpenAI, Replicate, Gemini

- Developed a platform for content creators leveraging generative AI models, including Replicate and Gemini.
- Enabled users to generate images, videos, code, and conversations with AI assistance, enhancing productivity by approximately 50%.
- Streamlined the creative process by integrating 3+ AI model APIs, providing a seamless content generation experience for a diverse user base.

SheSync | Next.js, MongoDB, Tailwind, Firebase,

- Built a women's health platform using MERN stack with features like period tracking, hygiene tips, and educational resources..
- Built a women's health platform using MERN stack with features like period tracking, hygiene tips, and educational resources.
- Implemented secure user authentication and real-time updates using JWT and RESTful APIs..

ACHIEVEMENTS / CERTIFICATES

- **HackerRank:** [rajputrajat2005](#) — 2000+ points in Problem Solving
- **Udemy:** [React Zero to Hero](#) | [Git and GitHub](#) — Certificates
- **InnoCodethon:** [Frontend Development and UI Design](#) — Certificate
- **GeeksforGeeks:** [College Rank 20](#) — GFG Practice Profile
- **LeetCode handle:** [rajatsingh](#) — Certificates in Dynamic Programming, Graph, Binary Search Advanced
